FREE LANDLINE TELEPHONE FROM PLACE GROUP UK AND LONDON STUDENT HOUSING GROUP

WHAT YOU NEED TO KNOW:

Every site now has a landline phone (with a standard London 020 number) to receive incoming calls from day one, with no set up costs or hassle. Additionally we will include **free outgoing calls** to all standard UK landline numbers (local and national) and many international numbers in our "all bills inclusive" package.

We supply an "office standard" Aastra phone, and in addition most sites now have **x3 separate incoming lines**, each with a separate **standard London 020 number**, ensuring no engaged tones.

STUDENT SITE TELEPHONE PACKAGE:

The free calls package does have a generous "fair use" policy imposed by our telecoms supplier. This is the one and only "condition" to our otherwise unlimited and unmonitored all bills inclusive package. However, students should find that the terms we have agreed with the telecoms supplier more than cover normal usage of the phone and there is no limit on receiving calls.

The present list of **international destinations** which are available to call within the package can be checked by [clicking here](#).
